# Subject Index to Volume 11

(DT) = Diet Therapy; (E) = Editorial; (PN) = Perspectives in Nutrition; (LE) = Letters to the Editor

## Absorption

- effect of D-sorbitol on, and transfer of nutrients from mother to fetus, 533
- intestinal, in man (PN), 324
- iron, and iron dosage, 559
- of liver-bound vitamin B<sub>12</sub> versus free cyanocobalamin in pernicious anemia, 568

African, health hazards in urbanization of, 551

Alaskan Eskimos, health and nutritional status of (ICNND survey), 31

## Alcohol

- and nutritional needs, 389
- intoxication followed by alterations of hepatic enzymes, 235

Aldosteronuria and kwashiorkor, 115

Alimentary lipemia and fasting lipid levels, 317

American Society for Clinical Nutrition, presidential address (E), 1

## Aminio acids

- analysis of content in foods, 377
- biochemical measurement of, and protein intake, 447
- in blood plasma in kwashiorkor and marasmus, 517
- utilization of, and protein, 382

## Anemia

- goat's milk, in retrospect (LE), 169
- pernicious, cyanocobalamin versus liver-bound vitamin B<sub>12</sub> absorption in, 568

Anorexigenic agents, evaluation of, 509

Anthropometric measurements in selected military population, 577

## Anthropometry

- in clinical appraisal of nutritional status, 418
- in evaluating nutritional status of selected population, 577

Antibiotics, influence on serum lipids and excretion of neutral sterols and bile acids, 156

## Antibody

- production, influence of combined pantothenic acid and pyridoxine deficiency on, 187
- response, factors affecting, 85, 180, 187

Antithyroid compounds and iodine deficiency, 389

ASCN News, 176

Ascorbic acid, biochemical measurement of, in determining nutritional status, 462

Bacitracin, influence on serum and fecal lipids, 156

Bantu prisoner, influence of diet on fecal lipids of, 142

Beans in human nutrition, 12

## Bile acid excretion

- and L3:5:3'Triiodothyronine, 4
- influence of diet on, 142
- influence of nonabsorbable antibiotics on, 156

## Biochemical measurements

- in appraisal of nutritional status in man, 462
- in estimating nutrient intake and nutritional status, panel discussion on, 493
- in selected military population, 577
- of minerals and proteins, 477

Biochemistry, contribution to understanding and solving world problem of protein malnutrition in children, 593

## Blood

- plasma, free amino acids in, in kwashiorkor and marasmus, 517
- pressure measurements in evaluating nutritional status of selected population, 577
- specimens, maternal and fetal, effect of D-sorbitol on absorption through analysis of, 533

## Body composition

- effect of meal eating versus nibbling on, 312
- effects of feeding frequency on, 356

Bone density, effect of lysine supplements on, 255

## Book reviews

- Burgess, A. and Dean, R. F. A. (ed.) *Malnutrition and Food Habits, Report of an International and Interprofessional Conference*, 549

Vanderbilt University Hospital Dietary Staff. *Diet Manual*, 550

## Calcium

### intake

- and roentgenologic osteoporosis, 263
- estimated by biochemical methods, 477

metabolism and kidney (PN), 77

Carbohydrates, analysis of content in foods, 377

Cardiovascular disease and diet in Framingham study, 200, 226

Chenodeoxycholic acid excretion and L3:5:3'triiodothyronine, 4

- Chlorphentermine versus dextroamphetamine in obesity, 509
- Cholesterol  
and starvation studies, 270  
ingested, effect of fat saturation upon, 108  
serum, family diet pattern for lowering, 102
- Cholic acid excretion after L3:5:3'triiodothyronine, 4
- Chromatography  
gas, in determination of fatty acid contents of margarines and other fats, 554  
ion-exchange column, in kwashiorkor and marasmus, 517
- Cirrhosis, hepatic, tryptophan and nicotinic acid metabolism in, 502
- Coagulation in retrospect (E), 177
- Code system for qualitative diet form in determining frequency of food intake, 335
- Compounds, deleterious, in foods (E), 500
- Copper levels in marasmus, 525
- Corn oil, disposition of cholesterol after ingestion of, 108
- Coronary heart disease, dietary assessment in epidemiologic study of, 226
- Cropectomy, effect on digestive organ weights and body composition, 312
- Cyanocobalamin versus liver-bound vitamin B<sub>12</sub> absorption in pernicious anemia, 568
- Cyanogenic glucoside in edible legumes, 281
- Densitometry in determining effects of lysine supplements, 255
- Dental caries  
effect of fluoride addition to milk on, 94  
in French Polynesia, 299
- Deoxycholic acid excretion and L3:5:3'triiodothyronine, 4
- Dextroamphetamine versus chlorphentermine in obesity, 509
- Diabetes, renal changes in (E), 253
- Diet  
and cardiovascular disease in Framingham study, 200, 226  
form in determining frequency of food intake in large group studies, 335  
influence on fecal lipids in South African white and Bantu prisoners, 142  
pattern for lowering serum cholesterol, 102
- Diet Therapy  
Food habits of Greek-Americans, 240
- Dietary assessment  
in epidemiologic study of coronary heart disease, 226  
diet form versus code system in, 335  
fat, influence on stool excretion patterns, 142  
intake, measurement of (Framingham study), 200  
protein, reduction causing biochemical changes, 447  
studies for assessment of nutritional status in nonmodernized societies, 344
- supplement (protein), effect on muscular strength and hypertrophy, 530
- surveys, family versus individual, 344
- Diets, lysine-supplemented, effect on growth and skeletal density in preadolescents, 255
- Disease  
and nutrition, relationship between, 406  
factors complicating clinical appraisals of nutritional status, 406
- Edema and kwashiorkor, 115
- Editorials  
Coagulation in retrospect, 177  
Deleterious compounds in foods, 500  
Health hazards in the urbanization of the African, 551  
Presidential address: American Society of Clinical Nutrition, 1
- Renal changes in diabetes, 253
- Electrolyte imbalance and renal lesions (PN), 77
- Elvehjem, C. A., in memoriam, 612
- Emotional factors in nutritional requirements, 389
- Endocrine activity, effect of feeding frequency on, 356
- Enzymes  
and protein intake, 447  
hepatic, alterations following oral alcohol intoxication, 235
- Eskimos, Alaskan, health and nutritional status of, 31
- Family  
diet pattern for lowering serum cholesterol, 102  
dietary surveys in assessing nutritional status, 344
- Fasting lipid levels and alimentary lipemia, 317
- Fat  
dietary, influence on stool excretion patterns, 142  
measurements in clinical appraisal of nutritional status, 418  
saturation, effect on disposition of ingested cholesterol, 108
- Fats, table, fatty acid contents of, 554
- Fatty acid  
and vitamin E requirements, 389  
analysis of content in foods, 377  
contents of margarines and other table fats, 554  
excretion, influence of diet on, 142  
levels after fasting, 317
- Favism and edible legumes, 281
- Fecal excretion  
of bile acids and sterols, influence of nonabsorbable antibiotics on, 156  
of liver-bound vitamin B<sub>12</sub> versus free radiovitamin B<sub>12</sub> in pernicious anemia, 568  
of sterols and bile acids, influence of dietary fat on, 142
- Feeding  
frequency, nutritional effects of, 356  
human, all-vegetable protein mixtures for, 537
- Fetal blood levels of nutrients, effect of oral supplements on, 533
- First Geiger Memorial Lecture  
Contributions of biochemistry to understanding and solving world problem of protein malnutrition in children, 593
- Flame photometry in analytical determination of minerals, 477
- Fluoride  
addition to milk, effect on dental caries in school children, 94  
intake, estimated by biochemical methods, 477

**Food**

- analysis and tables of food composition, 377
- composition and availability of nutrients in foods, panel discussion, 400
- habits of Greek-Americans (DT), 240
- intake
  - determining frequency in large group studies, 335
  - appraisal, panel discussion on, 362
- patterns and nutrition in French Polynesia, 299
- proteins, utilization of, 382
- supply and feeding frequency, 356
- tables, reliability of, 377

**Foods**

- deleterious compounds in (E), 500
- nutrients in, panel discussion on, 400
- variations in nutritive values of, 368

Framingham study on diet and cardiovascular disease, 200, 226

French Polynesia, food patterns and nutrition in, 299

**G**as chromatography in determination of fatty acid contents of margarines and other fats, 554

Geiger Memorial Lecture, 593

Global method in assessing nutritional status, 344

Goat's milk anemia in retrospect (LE), 169

Goiterogenic factors in edible legumes, 281

Greek-Americans, food habits of (DT), 240

Growth

- hormone and calcium metabolism (PN), 77
- lysine supplements and skeletal density in preadolescents, 255

**Health**

and nutritional status of Alaskan Eskimos (ICNND survey), 31

and serum lipids of Italian-Americans, 134

hazards in urbanization of African (E), 551

Heart disease, dietary assessment in epidemiologic study of, 226

Heat, elimination of toxic factors in legumes by, 281

Hemagglutinins in edible legumes, 281

Hematologic disturbances in infantile malnutrition, 525

Hepatic

- cirrhosis, tryptophan and nicotinic acid metabolism in, 502

- enzymes, alterations following oral alcohol intoxication, 235

Hormone, thyroid, effects on bile acid excretion, 4

Hyperaldosteronuria in kwashiorkor, 115

Hypertrophy, effect of protein dietary supplement on, 530

Hypogammaglobulinemia induced by combined deficiency of pantothenic acid and pyridoxine, 187

**I**CNND survey of health and nutritional status of Alaskan Eskimo, 31

INCAP vegetable mixture 9, effect of torula yeast on protein quality of, 537

Infantile malnutrition, hematologic disturbances in, 525

Interdepartmental Committee on Nutrition for

National Defense (ICNND) survey on health and nutritional status of Alaskan Eskimos, 31

**Intestine**

- absorption in man (PN), 324

- flux and osmolarity, 389

Intubation in determining intestinal absorption in man (PN), 324

**Iodine**

- deficiency and antithyroid compounds, 389
- intake estimated by biochemical methods, 477

**Iron**

- absorption

- and iron dosage, 559

- effect of D-sorbitol on, in pregnant women, 533
- regulation of, 559

- balance in human nutrition, 389

- dosage and iron absorption, 559

- intake estimated by biochemical methods, 477
- levels in marasmus, 525

Italian-Americans, serum lipids and health of, 134

**Kidney**

- and calcium metabolism (PN), 77

- changes in diabetes (E), 253

- tubular defects (PN), 77

**Kwashiorkor**

- and aldosteronuria, 115

- and biochemical maturation, 484

- free amino acids in blood plasma of children with, 517

- treated with isolated vegetable proteins, 127

- treated with pulse protein, 12

**L**ard, disposition of cholesterol after ingestion of, 108

Lathyrism and edible legumes, 281

**Legumes**

- in human nutrition, 12

- toxic factors in, and their elimination, 281

**Letters to the Editor**

- Goat's milk anemia in retrospect, 169

- Teaching and training in nutrition, 81, 170, 611

- Waters of the swamp, 610

Lipemia, alimentary, and fasting lipid levels, 317

**Lipid levels**

- and thyroid activity, 4

- fasting, and alimentary lipemia, 317

- influence of diet on, 142

- in Italian-American factory workers in Boston area, 134

- influence of nonabsorbable antibiotics on, 156

**Liver**

- bound vitamin B<sub>12</sub> in pernicious anemia, 568

- cirrhosis, tryptophan and nicotinic acid metabolism in, 502

Lysine supplements, effect on growth and skeletal density in preadolescents, 255

**M**alnourished children, arrested biochemical growth in, 484

**Malnutrition**

- see also Marasmus

## Subject Index

- Plasma, blood, free amino acids in, 517  
 Polio antigens, antibody response to, 187  
 Polymyxin B, influence on serum and fecal lipids, 156  
 Preadolescents, effect of lysine supplements on growth and skeletal density in, 255  
 Pregnancy  
     effect of D-sorbitol on absorption and transfer of nutrients in, 533  
     effect of low nutrient intake during, on obstetrical performance and offspring, 586  
 Presidential address: American Society of Clinical Nutrition (E), 1  
**Protein**  
     and amino acid utilization, 382  
     biochemical measurement of, 447  
     content of pulses and beans (legumes), 12  
     dietary supplement, effect on muscular strength and hypertrophy, 530  
     intake  
         and osteoporosis, 263  
         and resistance to protein deprivation, relation between, 574  
     malnutrition  
         in children, contribution of biochemistry to understanding and solving world problem of, 593  
         method for evaluating, 517  
         treated with isolated vegetable proteins, 127  
     mixtures, all-vegetable, for human feeding, 537  
     quality of INCAP vegetable mixture 9, effect of torula yeast on, 537  
     reserves  
         changes in, effect on nutritional status, 447  
         studies of, 574  
     supplements and muscular strength, 530  
 Pulses and beans in human nutrition, 12  
 Pyridoxine  
     absorption, effects of D-sorbitol on, in pregnant women, 533  
     deficiency, antibody response in, 180  
**R**atios, possible misuse of (PN), 249  
 Renal aspects of nutritional disease (PN), 77  
 Riboflavin, biochemical assessment of, 462  
**S**erum  
     cholesterol  
         and starvation studies, 270  
         family diet pattern for lowering, 102  
     levels of copper, iron, paraphenylenediamine oxidase and iron-binding capacity in infant malnutrition, 525

 Sterols  
     effect of saturation of fats on, 108  
     influence of dietary fat on, 142  
 Stool excretion patterns, influence of dietary fat on, 142  
 Symposium on recent advances in appraisal of nutrient intake and nutritional status of man, 331-499  
**T**able fats, fatty acid contents of, 554  
 Teaching and training in nutrition (LE), 81, 170, 610  
 Tetanus antigens, antibody response to, 85, 180, 187  
 Thiamine, biochemical assessment of, 462  
 Thyroid hormone, effects on bile acid excretion, 4  
 Torula yeast, effect on protein quality of INCAP vegetable mixture 9, 537  
 Toxicity of edible legumes, 281  
 Training and teaching in nutrition (LE), 81, 170, 610  
 Triglyceride levels after fasting, 371  
 L 3:5:3' triiodothyronine and bile acid excretion, 4  
 Trypsin inhibitors in edible legumes, 281  
 Tryptophan metabolism in hepatic cirrhosis, 502  
 Typhoid antigens, antibody response to, 85, 180, 187  
**U**rbanization of African, health hazards in, 551  
 Urinary excretion  
     of nitrogen, biochemical measurement of, and protein intake, 447  
     of N'methylnicotinamide in hepatic cirrhosis, 502  
**V**egetable mixture 9, INCAP, and torula yeast, 537  
     proteins in treatment of protein malnutrition, 127  
 Vitamin A, biochemical measurement in determining nutritional status, 462  
 Vitamin B<sub>12</sub>  
     absorption  
         and utilization, 389  
         effect of D-sorbitol on, in pregnant women, 533  
         liver-bound, in pernicious anemia, 568  
 Vitamin C absorption, effects of D-sorbitol on, in pregnant women, 533  
 Vitamins  
     analysis of content in foods, 377  
     utilization and requirements, factors affecting, 389  
**W**eather and soil factors, effect on nutritive values of foods, 368  
 Weight increments, meaning in clinical appraisal of nutritional status, 418  
**X**erophthalmia (PN), 603
